

Volunteer Committees

Animal Committee

Greet the trailers as they arrive, oversee load-off of the animals and assist in getting them into position. Be prepared to move the groups up into the parade in the order they will appear as directed by the integrator.

Band Committee

Greet band buses as they arrive. Assist in lining the bands up in the order that they will march in the parade. Be ready to move the groups forward as instructed by the integrator.

Balloon Committee

Work with the representatives from Balloon Company on details related to the balloons. Coordinate the various balloon handler groups in finding their balloon and assisting in moving the balloon into the parade.

Banner Committee

We will have multiple banners throughout the parade and volunteers will be asked to carry these banners down the parade route.

Disband Committee

Once participants are dropped off at the marshalling area, their vehicles will be parked in the disband area. It will be your duty to meet these vehicles as they arrive into the area and park them efficiently so they can exit as soon as participants are loaded. As the parade reaches the end of the route, groups are directed to their vehicles.

Wheels Committee

Work with other committee members to line up all floats and entries with wheels in the order that they will be in the parade and be prepared to move them forward as the integrator instructs.

Specialty Committee

Work with committee members to line them up in the order that they will be in the parade and be prepared to move them forward as the integrator instructs.
